where Spectroscopy and Biology meet

European Conference on the Spectroscopy of Biological Molecules

Oxford 25-30 August 2013

Date 25th - 30th August 2013, St Catherine's College, Oxford

Dear Colleagues,

It is my pleasure to invite you to the 15th European Conference on the Spectroscopy of Biological Molecules (ECSBM) to be held from 25th to 30th August 2013, at St Catherine's College, Oxford, UK. The meeting brings together the multidisciplinary community engaged in developing and applying imaging or spectroscopic techniques to the study of biomolecules, cells, or tissues for biomedical research, disease treatment and diagnosis. The meeting will focus on the use of traditional spectroscopic tools (Raman, IR, UV-vis, fluorescence, NMR, EPR) as well as imaging techniques and emerging technologies for dynamic measurements.

Tony Parker Chairman- ECSBM 2013, Central Laser Facility, STFC

Oxford is famous the world over for its University that has, for over 800 years, been a home to scholars and royalty alike. Today, this bustling cosmopolitan city mixes its ancient University with a growing hi-tech community. St Catherine's is Oxford's youngest mixed (undergraduate and graduate) college. The College atmosphere has the traditional values of Oxford college life, with modern architecture giving a distinctive position to pursue a modern agenda. The college motto, Nova et Vetera (the new and the old), reflects this. The venue has been carefully chosen to enable an active interaction between the delegates providing excellent conference facilities and supporting events in the historical city of Oxford and we look forward to welcoming you at ECSBM 15!

Major Themes

- ◆ Spectroscopy
- ◆ Imaging Super Resolution to Organism
- ◆ Multidimensional Spectroscopy
- ◆ Time Resolved Spectroscopy
- ◆ Theory and Systems Modelling
- ◆ Biomedical, Biochemical Applications of Spectroscopy
- ◆ Surfaces Membranes Enhanced Methods
- ◆ Disease Diagnosis
- ◆ Pharmaceuticals

Speakers Confirmed (April 2013)

Hugh Barr, UK
Brigida Bochicchio, Italy
Hugh Byrne, Ireland
Tobias Brixner, Germany
Peter Caravan, USA
